PROFESSIONAL SUMMARY

Detail-oriented software developer and Computer Science graduate (B.Sc., 2026) who builds responsive, performant web applications with React.js, Next.js and JavaScript. Experienced in the full development lifecycle, from planning and coding to testing and deployment, and in explaining technical decisions clearly in writing. Anthropic AI Fluency certified, with 200+ hours of self-directed study in AI systems and prompt engineering.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), HTML5, CSS3

Frameworks & Libraries: React.js, Next.js, GSAP

Backend & Tools: Appwrite, Git/GitHub, Vercel

AI: Prompt engineering, AI-assisted development workflows, AI response evaluation

EXPERIENCE

Remote Software Developer (Self-Employed) **2023 – Present**

- Design and build responsive, production-quality web applications for freelance and portfolio projects, owning requirements, planning, coding, testing and deployment.
- Deliver clean, performant and accessible interfaces using React.js, Next.js and GSAP.
- Debug and review my own code methodically, checking edge cases and usability issues before shipping.
- Adopt new tools independently, including AI-assisted development and prompt engineering practices.

Software Development Intern **2024 – 2025**

Information & Communication Technology Resource Center (ICTREC), Federal University of Agriculture, Abeokuta

- Built and maintained scalable web applications with HTML/CSS, React.js and Next.js, focusing on clean code and reliable performance.
- Reviewed code and technical documentation for accuracy, clarity and consistency, and corrected errors before deployment.
- Worked with a technical team to troubleshoot issues, document solutions and report progress to non-technical stakeholders.
- Delivered assigned modules on schedule with minimal supervision.

PROJECTS

Award-Winning Website **React.js, GSAP**

award-winning-website-with-reactjs.vercel.app

- Built an interactive, animated website showcasing modern frontend development and smooth user experiences.
- Implemented complex scroll- and interaction-based animations with GSAP while keeping load times in check.

Real Estate Listing Platform **React.js**

real-estate-website-five-bice.vercel.app

- Developed a responsive property listing platform with consistent navigation across all pages.
- Structured components for maintainability and readability.

EDUCATION

B.Sc. Computer Science **2026**

Federal University of Agriculture, Abeokuta (FUNAAB)

- Coursework in software development, data structures and web technologies.
